

# EDUCATION

*“With such an expansive campus, we rely on SRS to handle our shredding needs in a compliant manner so our staff can focus on providing a vibrant learning experience for our student body.”*

*– Jim J. Posey,  
Director of  
Physical Plant,  
GSW University*

## HUNDREDS OF ACRES, ONE SHREDDING SOLUTION

### APPLICATION

Founded in 1906, Georgia Southwestern State University (GSW) is a comprehensive state university within the University System of Georgia located in historic Americus, Georgia. Ranked as one of the best value small colleges in the nation, Georgia Southwestern has 3,000 students enrolled.

### CHALLENGE

The Georgia Southwestern State University campus is vast -- housing 44 buildings over 250 scenic acres. GSW struggled to find an efficient shredding solution that would also meet the University's stringent compliance requirements.

### SOLUTION

SRS proposed mobile, onsite shredding for GSW. SRS placed locked containers across the various departments and administrative offices covering the 250-acre campus. On a regular schedule, an SRS truck driven by a uniformed driver comes to GSW and shreds onsite. SRS's mobile fleet is NAID AAA-certified, meaning our shred trucks and drivers meet the industry's most comprehensive security measures. The "no touch" policy ensures that records stay secure throughout the destruction process and are never touched by any SRS driver or other team members.

### RESULT

SRS provides mobile shredding throughout the Georgia Southwestern State University campus. With such a large area to cover, the staff can focus on their core jobs with confidence knowing our NAID AAA-certified and GCIC compliant business is handling their document destruction needs.
